

HYDRAFLOW

Sustainability Recap

Hydraflow strives to continuously advance its corporate sustainability by promoting and monitoring activities focused on improving our **People** and **Planet**.

Reducing Our Impact on Landfills

Hydraflow's waste is recycled through our waste management service. Hydraflow presorts its paperwaste in order to maximize the recyclable yield. Additionally, Hydraflow recycles cardboard.

Water Conservation

Hydraflow's landscaping features drought-friendly plants that require less water usage. Hydraflow's bathrooms utilize water-efficient sinks and toilets.

Energy Efficiency

Hydraflow's solar system generates over 1 megawatt of DC power and consists of 3,420 photovoltaic panels on the roof and parking structures.

Health & Wellness

Partnering with our health care provider, Hydraflow has a wellness-based app that promotes healthy choices and encourages healthy lifestyles through challenges and prizes.

Education

Hydraflow values education and offers 100% tuition reimbursement for undergraduate degrees for employees. Hydraflow also partners with a local community college for on-site education, such as excel, blue print reading, and inspection classes.

Helping Our Community

Hydraflow has participated in Love Fullerton for the last several years and hosts a toy drive each holiday season.
